

PETERBORO MATBOARDS

WWW.PETERBOROMATBOARDS.COM

The Peterboro Story...

Peterboro opened its first manufacturing facility in 1902 where it began to produce several new products as a result of the historic invention of home photography. Almost overnight, the demand for photo mounting products exploded in response to a new North American consumer craze; the Kodak Brownie camera. The Brownie was the first camera that made photography accessible to the masses. At the same time, the movie industry began to grow, and Peterboro supplied laminated rigid sheets of poster boards that were used to display movie posters in theater lobbies. Retail department stores in major cities also began to expand at the turn of the century, and the need for signage to make price cards and window displays grew. These large department stores employed full-time sign painters and many used Peterboro Showcard to make price and sales signs.

Over the decades, Peterboro product lines continued to grow and meet ever changing needs. Some products came and went, while others transformed and evolved. Today, Peterboro manufactures a full line of illustration boards used by artists, architects, and students, as well as our flagship product – matboard. Peterboro is one of only a handful of companies worldwide, that possess the equipment, knowledge, experience, and technology to make a full line of quality matboard products.

Since its beginning, Peterboro Matboards has proudly remained a family owned and operated business with a strong foundation of exceptional customer service. Our steady growth is a result of a steadfast commitment to continually provide "Quality, Value, and Design" to all of our customers. Every Peterboro employee is dedicated to making the very best matboard possible, while using only the best raw materials available. In the current era of mass marketing and manufacturing, we strive to ensure that Peterboro has the distinguished reputation of providing the best, not the most.

Alan Yaffe
President

A = CONSERVATION

- Pigmented Conservation Quality Surface Papers
- High Alpha Cellulose Conservation Core
- Bleed and Fade Resistant Throughout
- Buffered with Calcium Carbonate
- Blue Wool Scale reading 5 or higher
- PPFA Class II

W = WHITECORE

- Pigmented Conservation Quality Surface Papers on over 85 % of the colors
- High Alpha Cellulose bright white core
- Conservation Quality Backing Paper
- Buffered with Calcium Carbonate
- PPFA Class III
